WAM AF-102

Tower Treatment

Application

WAM AF-102 is an effective industrial defoamer to be employed in both recirculating and discharge systems. This formula may be used in a variety of cooling water or wastewater situations but it is NOT suitable for use in boilers.

Dosage

The dosage necessary to be effective will be proportional to the amount of solid material present in the water. Consult your Waterside Asset Management representative for assistance.

Feeding

WAM AF-102 should be applied on a continuous basis with a metering pump. Do not feed it from a mix tank combined with other water treatment chemicals.

Packaging

Available in polyethylene drums and totes.

Technical Data

Form	Liquid
Color	White
Specific Gravity (g/mL)	1.00
Density lb/gal (kg/L)	8.35 (1.00)
pH (neat)	NDA
pH (1% solution)	NDA

Safety Data

Do not open this container or use its contents without first reading the material safety data sheet. If one is not available, call (425) 293-5763 for a replacement.
